

Personal, Social, Health and Economic (PSHE) education (including the statutory RSE programme) is a school subject through which pupils can develop knowledge, skills and attributes they need to manage their lives, now and in the future. These skills and attributes help children stay healthy, safe and prepare them for life and work in modern Britain. It is a curriculum of Life as it teaches children the skills they will need throughout their lives.

Please click on the Parent Consultation PowerPoint for more information and insight into our new PSHE Curriculum which includes the statutory RSE programme and the changes for the 2020/2021 academic year. The PowerPoint includes some of the videos, links and resources that will be used in lessons based around some of the topics in our new PSHE Curriculum which includes the statutory RSE programme. You can also refer back to these resources when supporting your child at home when discussing topics, they have learnt in school. All the resources for this new PSHE Curriculum including the statutory RSE programme have been provided by well-known children's charities, teacher approved websites and our Health and Welfare Officer at Chantry. All PSHE teaching including the statutory RSE programme will take place in a safe learning environment and is underpinned by our school ethos and values.
